HERE'S the POINT

By SPENCE HELD

Well, it's football season, and Point Loma High will make its '1955 debut in the big Carnival at Balboa stadium tomorrow night.

Coach Bennie Edens has at least three boys on the injured list, including Bill Harvey, first-string quarterback; Whit Smith, tackle, and Bill Kelly, halfback.

However, Harvey may see action before the evening is over. Jerry Booth, a 173-pounder, is expected to start at quarter.

Coach Edens announced the following tentative lineup on offense: Mike Collins and Fred Jones, ends; Nick Verdusco and Fred Azevedo, tackles; Ralph Hendrickson and Joe Welch, guards; Sheldon Spicer, center; Roy Kennedy and Frank Sacco, halfbacks, and Jack Henry, fullback.

There's considerable beef in that line—Verdusco, for instance, weighs 198, and Hendrickson 197.

With only seven lettermen from last year, Edens has a fairly green squad but Point Loma usually fields a fighting team and this one should be no exception.

Good luck, fellas!

* * *

USC and Stanford have been sending me the dope on their teams this fall but my Alma Tomato, San Diego State, hasn't been heard from. Fine thing!

The USC line averages 218 pounds and they've got a stable of fast backs who look exceedingly good on paper.

Oregon shouldn't give SC too much truoble tomorrow night, but I'm making no predictions. That intangible thing called spirit or fight is often the deciding factor in a football game.

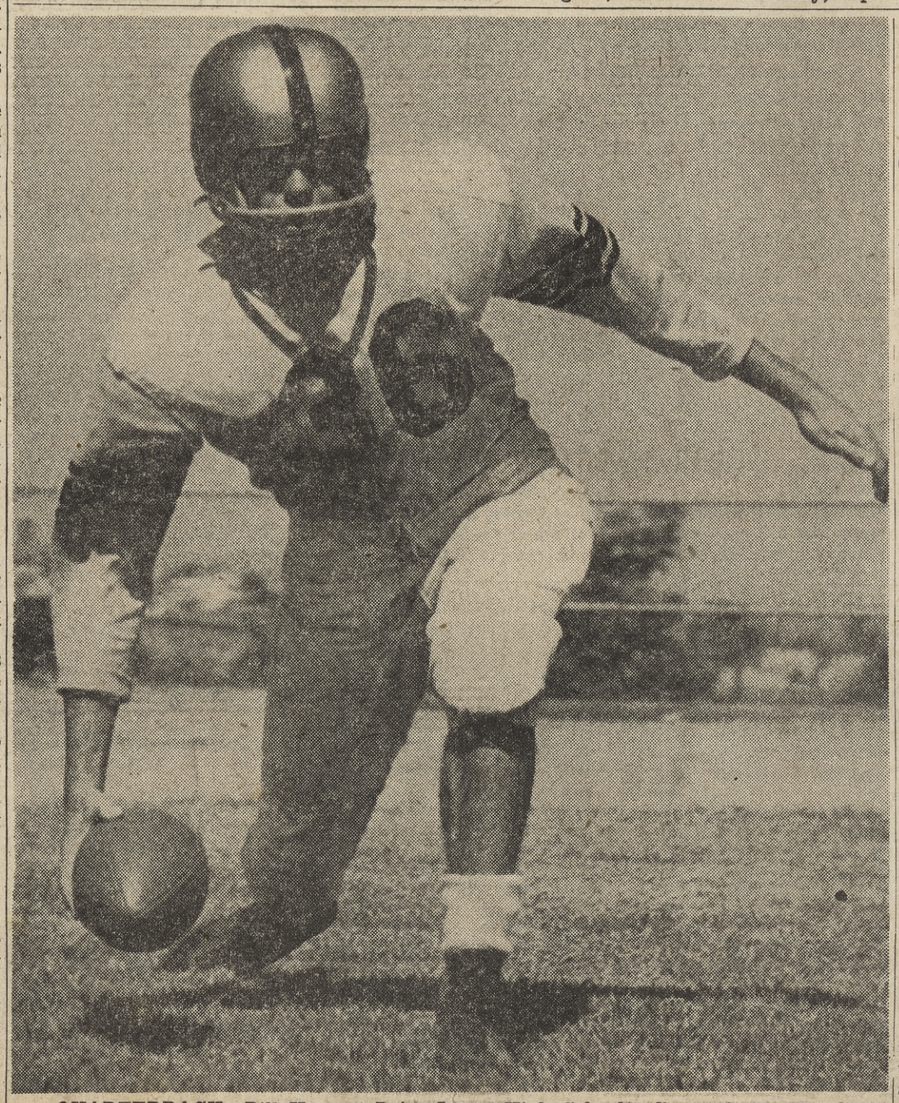
John Pierce, Ocean Beach Chamber of Commerce secretary received a letter from a fella in Los Angeles this week asking for a birth certificate and enclosing $1 in cash.

The letter was addressed to 'City of Ocean Beach, Bureau of Health."

Oh, well.



QUARTERBACK—Bill Harvey, Point Loma High School's first-string quarterback, was expected to be a key performer for the Pointers in Friday's Football Carnival until he was injured in practice. However, he may get into action anyhow, it was learned yesterday.—S. D. City Schools photo.

Pt. Loma Plays In Football Carnival Friday

Point Loma High School will take prominent parts in the football game, music and pageantry tomorrow when the city schools' 17th annual Football Carnival is presented at 7:30 p.m. in Balboa stadium.

Seventeen-hundred students from seven high schools will participate in the big show, 1400 in the colorful pregame pageantry dedicated to the 'Spirit of the Olympics" and 300 in the novel football game which will follow.

Crowd Expected

Carnival Manager Bill Bailey expects the carnival again to attract one of the largest crowds of the season in San Diego. A near-capacity attendance of 23,000 is forecast.

First on the program will be the 50-minute pageant dedicated to the 1956 Olympic Games in Australia. It will open propmtly at 7:30 with the colorfully costumed bands, girls' drill teams, drum and bugle corps, baton twirlers, flag twirlers, and other specialty units marching into the stadium en masse.

Laurel Wreath

Then ,one after another, each high school will present a seven-minute episode dramatizing one aspect of the Olympics.

Episodes will be presented in this order: San Diego High, Olympic torch; La Jolla High, winged foot; Hoover High, aquatics; Lincoln High, equestrian; Point Loma High, laurel wreath; Kearny High, victory stand; and Mission Bay High, Olympic shield.

Lomans Play 2

In the football game, scheduled to begin at 8:20, the "West" teams of La Jolla, Point Loma, and San Diego will be matched against the "East" teams of Mission Bay, Kearny, Lincoln, and Hoover. Because of the uneven number of teams, Point Loma will play in two quarters.

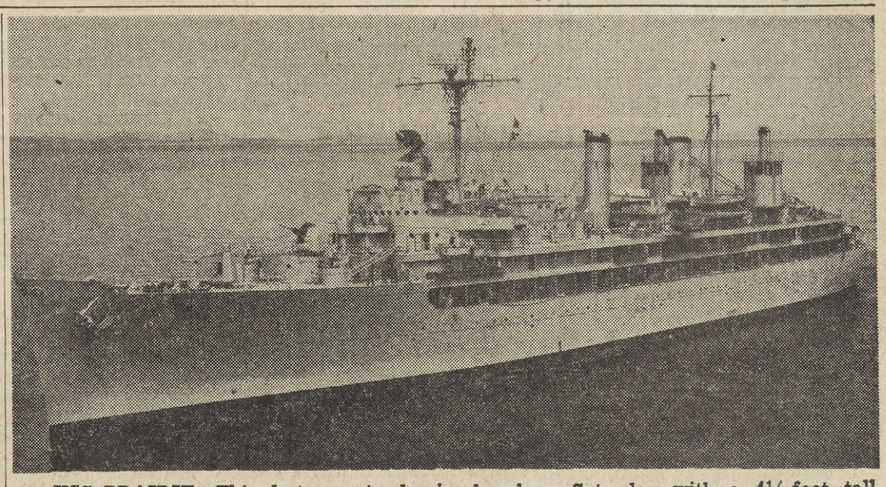
Pairings for the 15-minute quarters are: La Jolla vs. Mission Bay, Point Loma vs. Kearny, Point Loma vs. Lincoln, and San Diego vs. Hoover. Winner will be decided by aggregate scores.

Student bodies from the "West" schools wil sit on that side of the stadium, those from "East" schools on the opposite side.

Reserved Seats

Four center sections, two on either side of the stadium, will be reserved for the public. Reserved seats ($1.50) are available in advance at the seven participating schools.

Two supervised parking lots north of the stadium and a third on city public works property at 18th St. and Pershing Dr. will be open to the public without charge—but they will fill up early.



USS PRAIRIE—This destroyer tender is due here Saturday with a 4½-foot tall Japanese lantern made of stone, a goodwill gift to the people of San Diego.

NAVY SHIP BRINGING JAPANESE LANTERN

Carrying an 1875-pound stone Japanese lantern, the destroyer tender USS Prairie will return to port here Saturday, Sept. 24, completing a six-month tour of duty in the Far East.

The 4½-foot stone lantern, symbolizing Japanese culture, is a gift from the Japanese-American Citizens' league to the people of San Diego.

It will be presented as a 'thank you" for the assistance San Diegans gave in re-settling Japanese-Americans from internment camps at the end of World War II. It also expresses their gratitude for the McCarran Act which allows Japanese citizens residing in the U. S. to apply for American citizenship.

The Japanese-American Citizens' League assits these elder persons in preparing for citizenship examinations, giving them training in the basic fundamental knowledge necessary to become citizens. Also, the League has a program of helping to make persons of Japanese descent better citizens.

At the request of George Kodama, League president, the ancient Japanese stone lantern was obtained by the mayor of Yokohama, Japan, for transportation to San Diego.

It will be placed in a prominent spot adjacent to the Flamingo Pool at the Zoo in Balboa Park. The official presentation is scheduled tentatively for Oct. 3. Mayor Charles C. Dail will accept the lantern on behalf of the citizens of San Diego.

LOCAL ANGLERS QUALIFY FOR FINAL FISHOFF

Yellowtail fishing at the Coronado Islands continued to show improvement this week and members of the sponsoring Junior Chamber of Commerce Yellowtail Derby committee were keeping their fingers crossed in the hope that it would continue to gain through the final fishoff for the automobile and other prizes this Saturday.

Qualifying came to a close last Saturday with the low weight at 24 pounds 2 ounces and three Point Loma-Ocean Beach area anglers above that level and therefore eligible for the one-day finale. As a matter of fact, Herbert Fredman, 3520 Fenelon, had the distinction of topping the fourth period quaulifying list with his 42 pound 12 ounce yellowtail and the other two were R. W. Jaffke, 4631 Santa Monica, with a 27-6 albacore and Ferdinand Fletcher, 927 Runnymeade Lane, with a 25-4 albacore.

Two important derby prizes were salted away by the winners at the close of qualifying. Dick Fleming, San Diego, won the award for the largest yellow taken in the course of the four derby periods (50 pounds 3 ounces) and Charlene Eckles, San Diego, won the same honor for the feminine contingent with a 31-14 yellow.

Keeping step with the yellowtail improvement, marlin also started popping in earnest last Friday when 24 spikebills and one broadbill were boated.

Hunting for a home is no news, but hunting for a home for one's prize cattle is somewhat different. Such is the case of Mr. and Mrs. Joe Lownes.

Last week they sold their ranch at Chino, Calif., and now are looking for just the right spot to make their beautiful Angus stock the best home.

Mr. and Mrs. J. R. Bowie, Jr., if asked, no doubt would say it was as hard to move across the alley as across town. NATIONAL FORESTS REALM OF THE WILD

Sport on one of the national forests which contain 81,000 miles of fishing streams and 2¼ million acres of natural and artificial lakes. These public forests also furnish food and shelter for nearly one-third of all the big-game animals in the United States and for many, many thousands of fur bearers, game birds and waterfowl. They are truly a Realm of the Wild.

With the exception of a few game preserves, all 181,000,000 acres of national forests are open to hunting and fishing under the fish and game laws of the states in which they are located. Last year, over 10,000,000 visits were made by fishermen and hunters from every state in the Union to enjoy their favorite sports in these forests.

Wildlife is a renewable resource just like grass and trees. Accordingly, the Forest Service works closely with the state fish and game departments to provide better fishing and hunting for the many people who love these outdoor sports. As America's population increases and working hours become shorter there will be ever greater demand for hunting and fishing on the national forests.

In marking the 50th Anniversary of its establishment by the American people, the Forest Service of the U. S. Department of Agriculture urges every American to take a greater interest in the protection, development and wise use of the national forests which belong to all the people.

Ladie of the Altar Society of Sacred Heart Church will sponsor the Fall card party on Friday, Sept. 23rd in the parish hall, 2001 Sunset Cliffs Blvd. The theme and decorations will be in the autumn motif. Tips on Touring

By Carol Lane
Women's Travel Authority

"Remember the Litter — Basket," is a slogan we should keep in mind around picnic and camp sites, as well as on city streets. While litter may be a sign that we've had a good time, it is a nuisance for those who follow.

Ants and other insects can be expected at picnics and there's not much we can do about them. There's no excuse for the other fellow's left behind scraps. They can ruin a picnic site. If you've ever stopped at a spot despoiled by its former occupants, I'm sure you know what I mean.

Litter is unnecessary because it's so easy to be neat. Take a look around any well-run picnic grounds, such as those in state parks, and you will find an ample supply of trash receptacles. However, if no bin is handy, take along your litter and dispose of it later. After a weiner roast, or other outdoor cooking, bury the remains of your fire.

Campaign against litter 100 per cent not just halfway. Leave the campsite neat, and don't neglect the inside of your car. When you travel, your car is your home on wheels. Keep it as clean as you do your living room. If your passengers want to picnic as you drive, suggest that they put wax paper and napkin and left overs back into a paper bag and throw it all into a litter basket at the next stop.

But don't try to keep the inside of your car clean by throwing trash out the window. It spoils the highway for others, and — in many places — it may cost you a fine.

Tips on Touring

By Carol Lane
Women's Travel Authority

For a delightful bridge between the end of vacation and the start of school, try a tourette that leads to learning. A tourette is a two or three day tour within a couple hundred miles of home. It's fun for the family, and it gives children fresh, first-hand knowledge as school begins.

You can plan a good tourette anywhere in the United States. Here are a few I've taken.

In Winston-Salem, North Carolina, a brick dwelling built in 1819 has recently been restored. It is the former home of silversmith John Vogler and is the latest house museum to be renovated in the historic Moravian community.

Near Three Rivers, New Mexico, are records of ancient Indian tribes which lived over 1,000 years ago. The records are Pictographs, carved in old limestone, relating the everyday lives of the early Redmen. The carvings extend for many miles along the rocky surfaces of the low rolling hills.

The Lewis and Clark Cavern, in the Montana mountains between Yellowstone and Glacier Parks, is now open to visitors. Part of the largest limestone formation in the Pacific Northwest, the cavern overlooks the Jefferson River on the route followed by Lewis and Clark 150 years ago.

A visit to the home of a former president always proves interesting. "Sagamore Hill," in Oyster Bay, Long Island, recalls the exciting and adventurous life of Theodore Roosevelt. Every room of this charming house contains mementos of his early life or of his colorful political and military careers.

Motorists And Pedestrians Warned Of Increasing Accident Hazards

Daylight saving time ends Sunday, September 25.

The days are getting shorter.

Football game time is here.

All these add up to warning for motorists to drive MORE CAREFULLY than ever before.

Ronald T. Strong, president of the Traffic Safety Council cautioned motorists and pedestrians too, that we are coming into a season of the year when accident hazards increase.

"More traffic casualties occur between the hours of 4 and 8 p.m., than at any other period of the day or night," he said. "This is the time of day when there is heavier traffic, darkness and a tendency on the part of all of us to rush home from work or to an evening appointment.

"In San Diego County many school children will be walking and driving to football games. They're exuberant and may not be as careful as they should.

"It's up to the parents and the adult drivers to watch out for them and for each other.

"So, by all means," Strong urged, "use caution that will guard against darkness that hides danger—and death."

Loma Portal PTA Membership Drive Begins October 3

Loma Portal Parent Teacher Association starts its membership enrollment Monday, October 3, through Friday, October 14, with the slogan "Teamwork Does It."

In line with this theme, a poster will be hung in each classroom, and a member of the "Team," represented by a small colorful crepe-paper figure, will be added to the "field" for each five members the students in that class bring into PTA.

While the membership of each Loma Portal teacher, mother and father is the prime goal, everyone interested in children is more than welcome to contribute 50 cents toward the furthering of Parent-Teacher Association's work in Juvenile Protection, Health, Safety, Welfare, Parent Education and other worthwhile activities.

Membership dues envelopes are sent home to each Loma Portal student, but anyone else desiring to become a member of Loma Portal PTA may do so by contacting the membership chairman, Mrs. Mortimer Rosenbaum, at AC-3-0104.

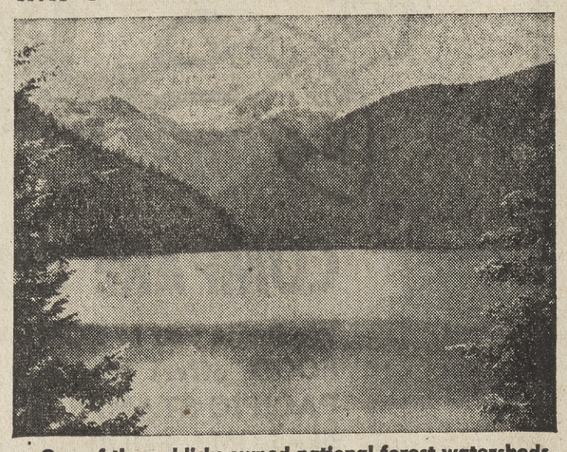
NATIONAL FORESTS ARE IMPORTANT SOURCE OF WATER



One of the publicly owned national forest watersheds, protected and managed by the Forest Service, U. S. Department of Agriculture. Such national forest watersheds are on the headwaters of many large river systems including the Colorado, Columbia, Rio Grande, Missouri, Arkansas, and Ohio. They are a major source of water for over 20,000,000 people and for more than 600 power developments including Hoover Dam. Water originating in the national forests irrigates an area greater in size than the states of New Hampshire, Massachusetts, Rhode Island and Delaware combined. Thousands of industrial plants are dependent on them for their water supplies and watershed protection gets first consideration in all plans for national forest management.

Water is priceless, and increased demands for water and other natural resources are bound to put an even greater pressure on your national forests in the years ahead. So the Forest Service, which is observing its Golden Anniversary this year, urges people everywhere to gain a better understanding of their dependence upon protection of watersheds, the source of their water supplies.

NEW TEACHER WELCOMED AT BETHANY LUTHERAN

Members and friends of Bethany Lutheran Church welcomed their new primary teacher Sunday night with a surprise pantry shower. She is Mrs. James Glaves, of St. Louis, where she taught the last two years in Hope Lutheran School.

She and her husband, a student at State College, reside in the congregation's teacherage, at 4778 Cape May Ave. Several interesting games were enjoyed at the shower, and the ladies of the congregation served cake and cookies. More than 50 adults were in attendance, with a few children.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

While in the session of Congress just ended the multi-billion dollar new highway program failed of passage, and as a result, many metropolitan papers are making a great hue and cry over this fact, the debate on the matter presented some interesting sidelights.

* * *

C. W. Harder

First of all, there was the question of raising money. Major Oil was all for it, Big Cement was all for passage of such a measure, and so were other big operations, except they didn't feel they should be required to pay for any of the cost. Some Washington observers commented that these people performed a gymnastic miracle, i.e. they could loudly clap their hands applauding the idea while still keeping their hands in their pockets.

* * *

For example, one of the sources of revenue proposed was to impose new taxes on the small firms who recap tires and on garages and service stations that sell recapped tires, about only segment of vast rubber industry left open to small operator.

* * *

One of the proposals was to place a tax on camelback, which is the trade name for rubber used in recapping tires, of 15 cents per pound.

* * *

Of course, customers of tire recappers would pay for tax in higher prices.

* * *

But the bill would have provided that the recapper would have to pay this tax on the raw material as he bought it. Thus, 15% of his working capital would immediately be tied up in a fund to pay taxes as well as 15% of the inventory capital of all retailers handling recapped tires.

Even the largest corporations would be hard hit to have their working capital reduced over night by being forced to tie up 15% of it in a tax fund.

* * *

This 15% would be in addition to other funds the small business man must maintain to pay income taxes, social security, sales and excise taxes.

* * *

In other words, assume that a small tire recapper had to carry at all times an inventory of $10,000 worth of raw material. To maintain that inventory at that level under the tax proposed to finance new highways, he would have had to beg or borrow immediately another $1500. And even though he would probably be forced to pay interest on the amount he borrowed, he would receive no interest from the government to offset this expense.

* * *

Thus, the debate again bore out the truth of the matter. That truth is this. No matter what grandiose schemes are arrived at, it is eventually the small businessman who must bear the burden of them.

* * *

And while it is perhaps fine for government to have meetings with so-called "captains of industry" to hatch and applaud great deeds of daring, it would be much sounder to first discuss it with men who must pay bills.

* * *

It is to be taken as a certainty that the nation needs better roads. In fact ever since the war it has needed them much more than the U. S. needed a multi-billion dollars foreign give away program. And in the months to come, there will be a lot of propaganda for rushing into a huge highway building program. But it can also be taken as a certainty that those who do the most drum beating are those who will bear the least part of the financial burden.

HEALTH FOR ALL

What do you know about your baby sitter?

You hire someone to come into your house and stay with your children while you take a well-deserved evening out. She plays with your children, gives them their supper, puts them to bed, carries them the glasses of water they demand before settling down.

If the baby cries in the night, she picks it up and comforts it. For a few hours she's as close to your children as you normally are.

Of course, you know her. She's that elderly woman from down the block, or from the agency, or the teen-age daughter of your best friend. You know that she's reliable, that your instructions will be followed, that the children like her, that they are safe with her.

Is She Healthy?

But are they safe with her? Are you sure that she doesn't have an infectious disease that might be passed on to your children? Are you as cautious about your baby's sitter's health as about her character? Both are of vital importance to your children's welfare.

Of course, if the baby sitter arrived coughing and sneezing you'd send her home, sorry as you might be to miss your fun. But—tuberculosis has no warning symptoms in its early stages.

Unless you know that your baby sitter has regular physical exams and a chest X-ray at least once a year, you can't be sure that your children will be safe with her.

Many older women, when asked about their health, will say proudly, "I haven't been to a doctor in years." It's nothing to boast about. Tuberculosis has no respect for age and gray hair. In fact, it is becoming increasingly a disease of older age.

You owe it to your children to inquire into the health of your baby sitter. And if she's offended? Well, they're your children, aren't they?

(This column is sponsored, in the interest of better health, by the San Diego County Tuberculosis and Health Association and the Peninsula News.)

R. G. GILBERT TAKES PART IN BATTALION TRAINING

25TH DIV., HAWAII—Army Pvt. Robert G. Gilbert, son of C. G. Gilbert, 4864 Brighton ave., recently took part in battalion training tests held by the 25th Infantry Division on the island of Hawaii.

The two-day test was divided into three phases — defense, night withdrawal and attack. The island is about 200 miles from the unit's home station at Schofield Barracks on Oahu.

Gilbert is a 1954 graduate of Kearny High School.

Civitan Comes To San Diego

A prominent group of San Diego business and professional men have recently brought the international service organization, Civitan, to San Diego.

Civitan International, known for its purpose of promoting good citizenship, is well established in Texas and the Southern States and is rapidly spreading its organization to California and the Pacific States.

Charter membership for the San Diego chapter was established in April, and the Pasadent sponsoring chapter presented San Diego its charter July 8 during a dinner dance at Town and Country before a large group of business leaders including representatives of each of the local organizations.

President Howard Craghead, San Diego Gas and Electric Company executive, has announced the limited extension of membership for additional classifications.

Many homemakers are finding it is thrifty and fun to make clothes for themselves and their families. New classes are available in clothing at Midway Adult Center every weekday except Friday. Call AC-3-1671 to enroll. Sewing machines and equipment are furnished for these classes. Mrs. Dorothy Saleebey, Mrs. Lillis Stephens and Mrs. Wilma Stiles are instructors in the program. Midway Adult Center is located at 3249 Fordham St.

About 70 per cent of all the rubber used in the United States today is synthetic rubber made from crude oil or natural gas, according to the National Automobile Club.
